

Precision Metal Stamping Parts

Features of [precision metal stamping parts](#):

- Product name: Precision Metal Stamping Parts
- Material:Carbon Steel, Barss, Copper, Stainless Steel, Alumnum, Titanium Alloy
- Machining Tolerances:0.1mm
- Machining Process:
Punching, edging, pressing and welding
- Min. Order:1000PCS
- Surface Treatment: Polishing, Heat Treatment, Sand Blasting, Zinc Plated, Anodization, Chemical Fim,
- Packing: Carton Box, Blister tray, Pallet, Wooden Case.
- Certificate:ISO9001:2008, ISO/TS16949

Tel:+86 574 62387787 **Fax:**+86 574 62387788 **Mobile:**+86 13758266067 **Skype:**hewcho
Email:info@hewcho.com **Whatsapp:**+86 13758266067 **Website:**www.hewcho.com

The **precision metal stamping in China** is of good quality. The [china precision stamping](#) is one of the most popular products in our company.

What we can Provide:		Machining Material:	
CNC Machining Service		Carbon Steel	
CNC Turning Service		Stainless Steel	
CNC Milling Service		Aluminum	

Cold Forging Service		Brass	
Metal Stamping Service		Copper	
		Titanium Alloy	
Surface Treatment		Application:	
Heat Treatment		Automobile Spare Parts	
Sand Blasting		Electrical Appliance Industry	
Polishing		Electronics Industry	
Zinc Plated		General Industry	
Anodization		Machinery and Equipment	
Chemical Fim		Hydraulic and Pneumatic	

Description of precision metal parts

Stamped parts are products made of plate-shaped materials with arbitrary shapes and contours. Especially in the field of sheet metal processing , the production of **precision metal components** is an integral part of the manufacturing process, since sheet metal parts often have to be manufactured with a high number of recurring shaped elements such as recesses. Thereby making fast processing times and consistently high quality, even in large numbers, punching an indispensable basic technology. Typical examples are brackets, clamps, washers, seals or fasteners, which are manufactured by means of stamping.

The benefits of Stamping

Tel:+86 574 62387787 **Fax:**+86 574 62387788 **Mobile:**+86 13758266067 **Skype:**hewcho

- Diverse contours and transformations
- No thermal material interference
- An economical and flexible production
- Consistent quality even with large quantities

Applications for stamped parts

- Fittings and angles
- Components for heat exchangers
- Carrier elements and holders
- Printed circuit boards and electrical contacts

What stamping parts can be manufactured?

According to your requirements and cost-optimized, our suppliers manufacture high-quality edgebands in a wide variety of shapes. Whether for dressing, stiffening or covering - Here you will find optimal manufacturing solutions for every imaginable application. Steel, aluminum, stainless steel, copper and zinc sheets with different surfaces are immediately available, which is why your end product is delivered on time.

Why Choose [Hewcho](#)?

Low price, process performance (e.g., weldability and cold formability) good.
